Cold

Cut out

Day Number
Cut open the window in the circle. Use prestick to stick over the day of the month featured.

Months
Cut out

Months

Cut out the window in the bar above.
Slice the lines on each side of the months of the chart.
Attach the 2 bars behind the chart with clear packaging tape at the top and the bottom of each bar.
Insert the window bar through the slits and wrap around the 2 cardboard bars, fold flat and connect the window bar ends to each other.
The bar can now slide up or down over the months revealing the month featured.
