

Dear Sir or Madam:

My name is Francisco Zafra. I am Principal in IES Sierra de Mijas, a secondary and high school of vocational students, in Mijas (Málaga), Spain.

In our school is taught, among others, of **ADVANCED EXPERT IN ANIMATION OF PHYSICAL AND SPORTS ACTIVITIES.**

The general competences of these students are:

Teach and animate games, recreational physical and sports activities, either for individuals or teams, and with implements, as well as basic physical conditioning activities, adapting them to the characteristics of the environment and the participants, achieving user's satisfaction and a competitive quality level within the expected costs.

These studies are in the ambit of the high education in Spain.

I Attached an archive with all syllabus of the studies and other about our School .

I am contacting with you because we want your institution to be our reference in Eindhoven. We are interested in meeting your institution. And we would like to send students there. In the same way we would also like to receive your students.

We need to look for different companies which can receive our students with a program ERASMUS+ for the INTERNSHIP, this is a **STUDENT MOVILITY FOR TRAINING.**

This internship aims for training the students in the field of the company. And it will take place between the end of March and the end of June next year (2018) As part of the European student mobility program, a maximum of six students will be able to do these internships in a country of the European Union, and in this case in a company of the Physical Activity sector. As I indicated before, our intention is, if you could, you help us to contact companies in this sector in your work environment to carry out this training.

I would be grateful if you could tell us if it is possible for your institution to act as mediator to locate the companies in which students can do internships.

In the same way, we offer our cooperation for any participation of your institution in European programs, such as receptors, intermediaries, or any other assistance offered for activities in the environment of our IES Sierra de Mijas.

I look forward to hearing from you.

Yours faithfully:

Francisco Zafra Machuca  
Principal IES Sierra de Mijas
