Your reply here :

Good evening,

I would like to get some information about the camp, because I am really interested.

Firstly, I don't know where is it and I need to know that because if I don't know my father won't let me go.

Secondly, I need to know the duration of the camp because I have to comeback to school. 59

Finally I would like to know something about language classes and teachers. I want to learn French because it is one of the most important languages in Africa and I want to visit it.

I would like to be sure that there are good teachers in the camp because my French teacher in my school is horrible.

I hope your answer, 123

Write a short article for *Health and Fitness Magazine* in which you describe how you use the bicycle as a means of transport.

In your article you must write about:

- Whether you use your bicycle frequently and why you use it (or why you do not use it).
- The advantages of using the bicycle as a means of transport.

Write between 175-200 words.

Nowadays a bicycle is one of the best means of transport. If you live in a big city like London or New York, I am sure that a bicycle is one of the best choices that you could do, because it's small, useful and cleaner than a car.

I love my bike because it is part of my life. I use it a lot, I always go at job on it, but when it's raining I take the bus.

Sometimes I go with my children and their bikes to the country and we have greats times together. I use it because I like the mobility and because I feel great after use it.

There are cities like Amsterdam when everybody have a bike, I think we should do the same.

A bike has lots of advantages, you can go wherever you want with it and for my the best advantage is that you don't have to pay gasoline.

In conclusion the bicycle it's the best mean of transport and it is very healthy too.
