My town in the past and today

My town in the past and today.  
I live in Palma del Río. In the past there was a new bridge and it was smaller than today, there wasn't a hospital or a shopping centre. There were a lot of bikes in my town, there weren't any big supermarkets. Today in my town there is a train station and a big cinema, there isn't a shopping centre or a hospital. There are lots of motorbikes and there aren't any art galleries.

## Places to visit in Palma del Río by Pablo C.

My favourite place in Palma del Río is the sports centre because I play with my friends. The newest building in Palma del Río is the cinema. The oldest building in Palma del Río is Asunción Church. Asunción Church is also the biggest building in Palma del Río. The quietest area is near the river because it is far from the city centre. Friday and Saturday are the busiest days in the city centre. Palma del Río is fantastic!

My town in the past and today by José Antonio.

I live in a large town, Palma del Río.

In the past it was a small village.

The population is 21.000. In the past there were 200 people.

Today, in my town, there are fields, in the past there were also fields.

In my town there are lots of roads, in the past there were lots of paths.

In my town there is a big park but in the past there was a small park.

Today there are lots of big buildings but in the past there weren't any big buildings.

In my town there is an old bridge. In the past there was a new bridge.
