

# UNITÉ 4: Zootopie

Prénom: .....

Classe: .....

# 1. J'apprends des mots nouveaux

# 1. J'apprends des mots nouveaux

- Écoute l'histoire et mime

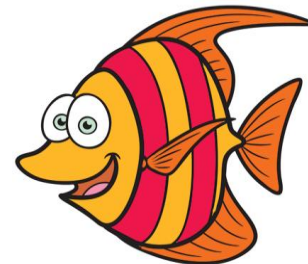

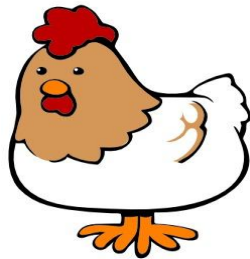

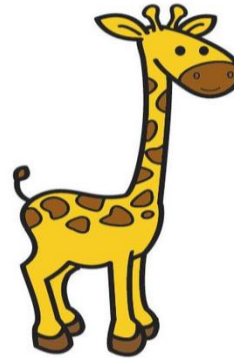

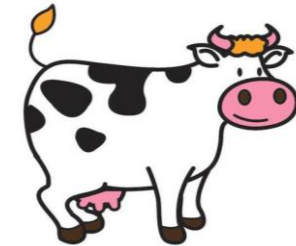

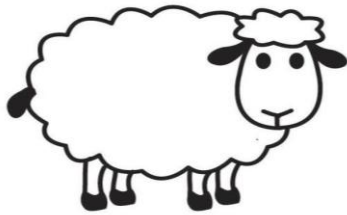

Il était une fois un garçon. Il s'appelait Nicolas. Il habitait avec son chien Wouf, son chat Minet, et son poisson rouge, plouf. Wouf et Minet adorent courir. Le poisson nage dans son aquarium. Un jour, il va à la ferme. Il y voit des moutons, des vaches, des poules, des cochons et des canards. Le cheval court. Les lapins sautent. Les oiseaux volent dans le ciel. Nicolas est triste parce qu'il ne voit pas de giraphe, ni de requin. C'est normal, la giraphe n'habite pas dans la ferme, elle habite dans la savane. Et le requin habite dans la mer.

# 1. J'apprends des mots nouveaux

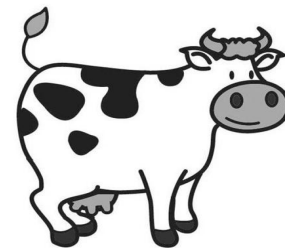

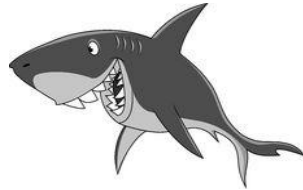

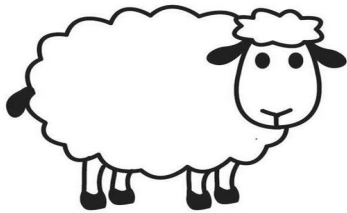

- Écoute et numérote

# 1. J'apprends des mots nouveaux

- Écoute et colorie

# 1. J'apprends des mots nouveaux

Trouve les animaux que tu connais

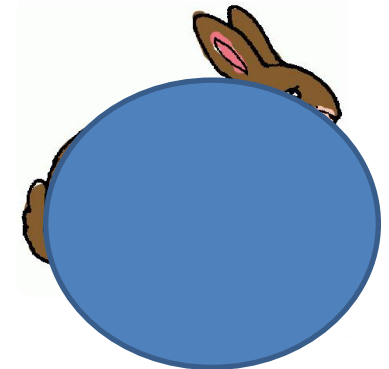

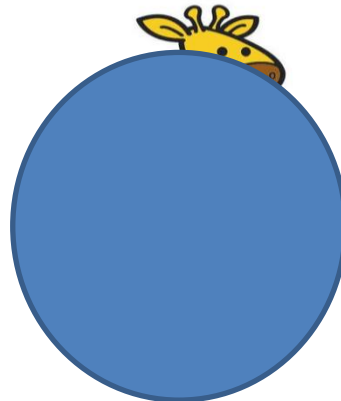

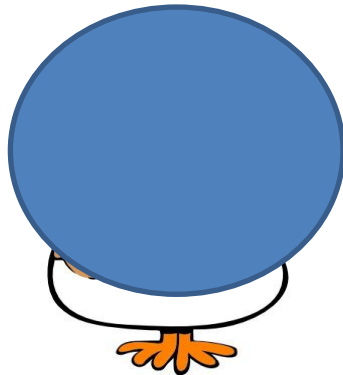

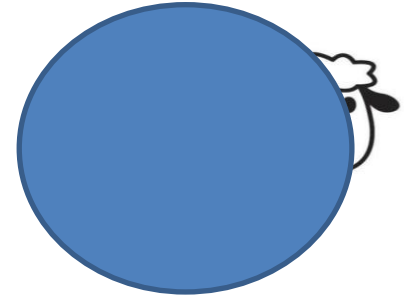

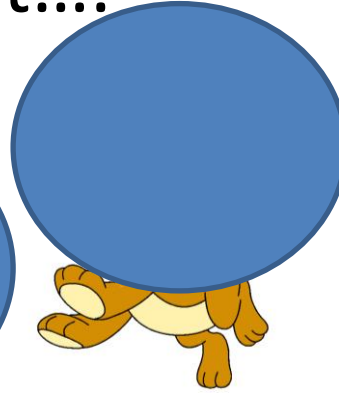

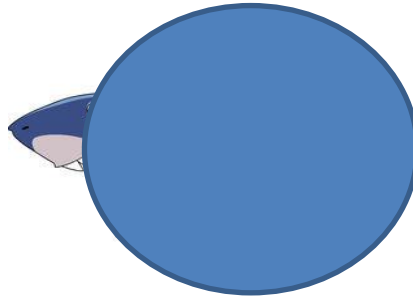

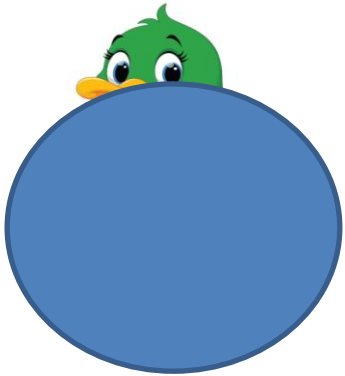

# 1. J'apprends des mots nouveaux

Qu'est-ce que c'est? C'est....

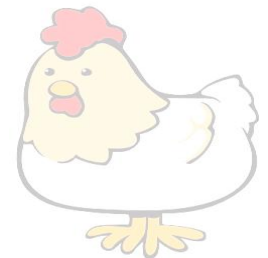

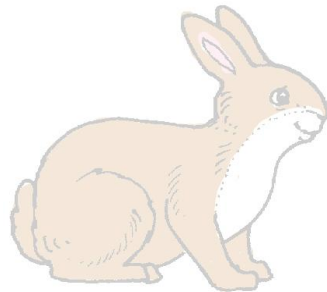

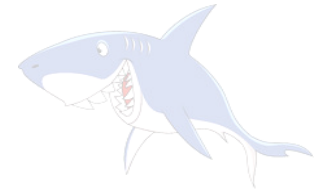

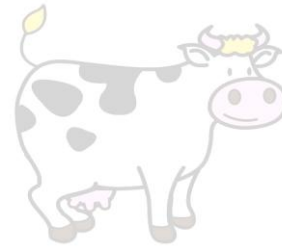

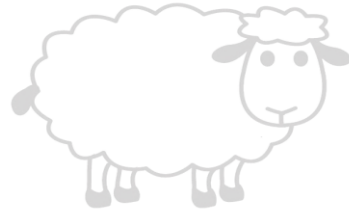

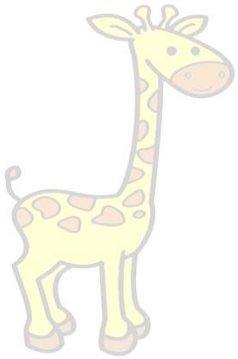

# 1. J'apprends des mots nouveaux

Qu'est-ce que c'est? C'est....

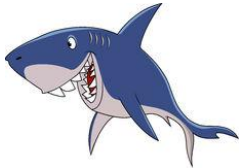

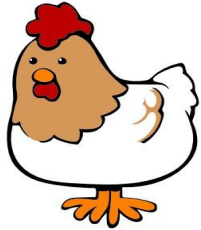

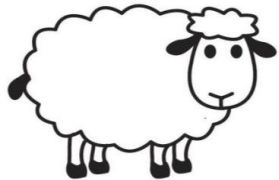

# 1. J'apprends des mots nouveaux

- Relie

La girafe

La vache

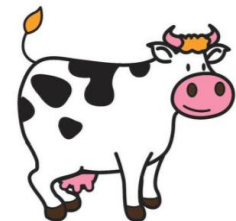

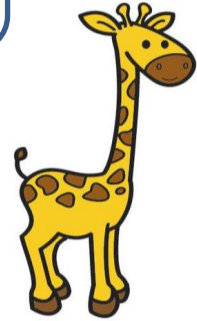

Le canard

La poule

Le mouton

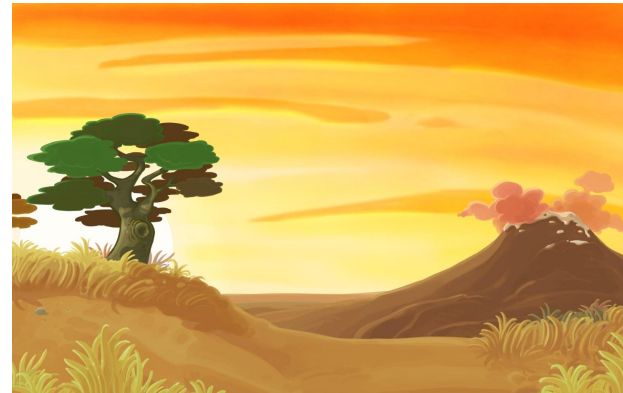

La chien

Le requin

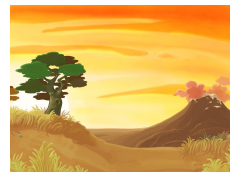

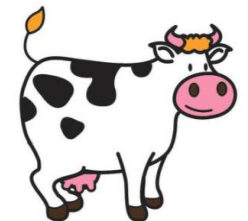

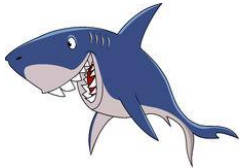

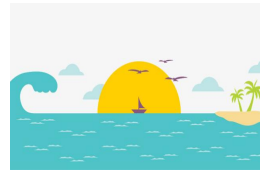

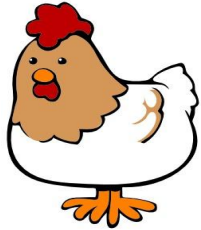

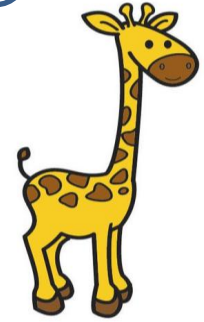

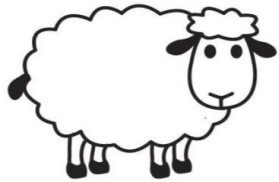

## 2. J'apprends où les animaux habitent

## 2. J'apprends où les animaux habitent

Relie

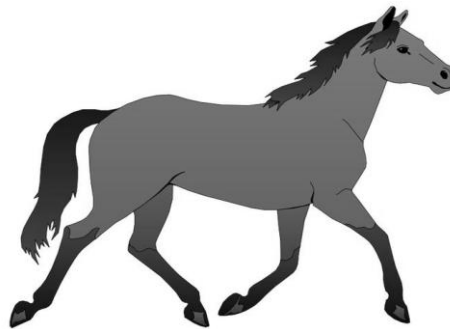

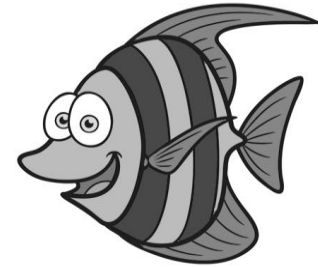

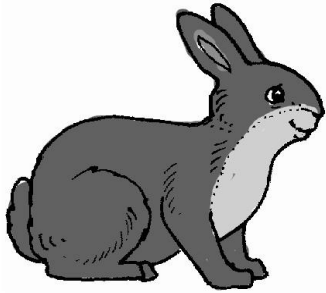

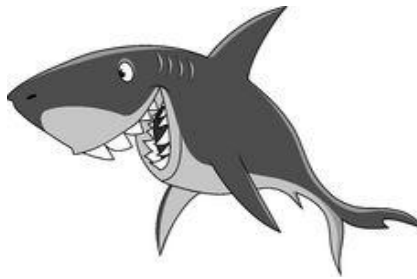

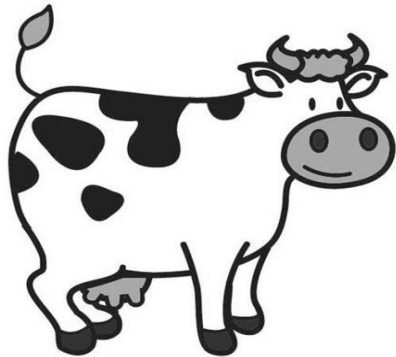

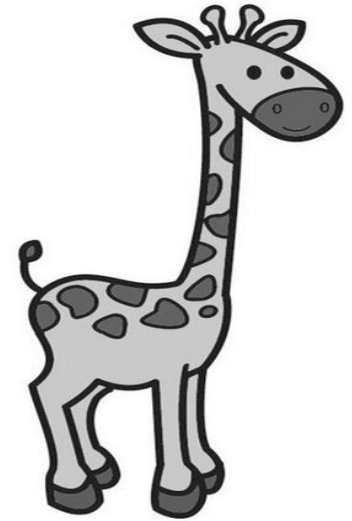

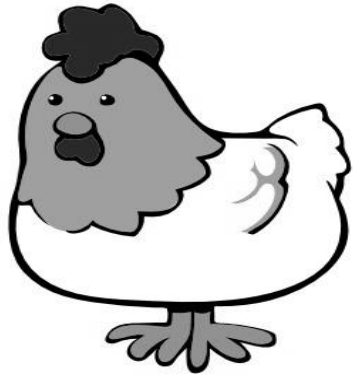

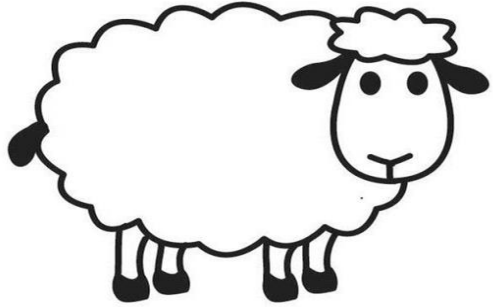

## 2. J'apprends où les animaux habitent

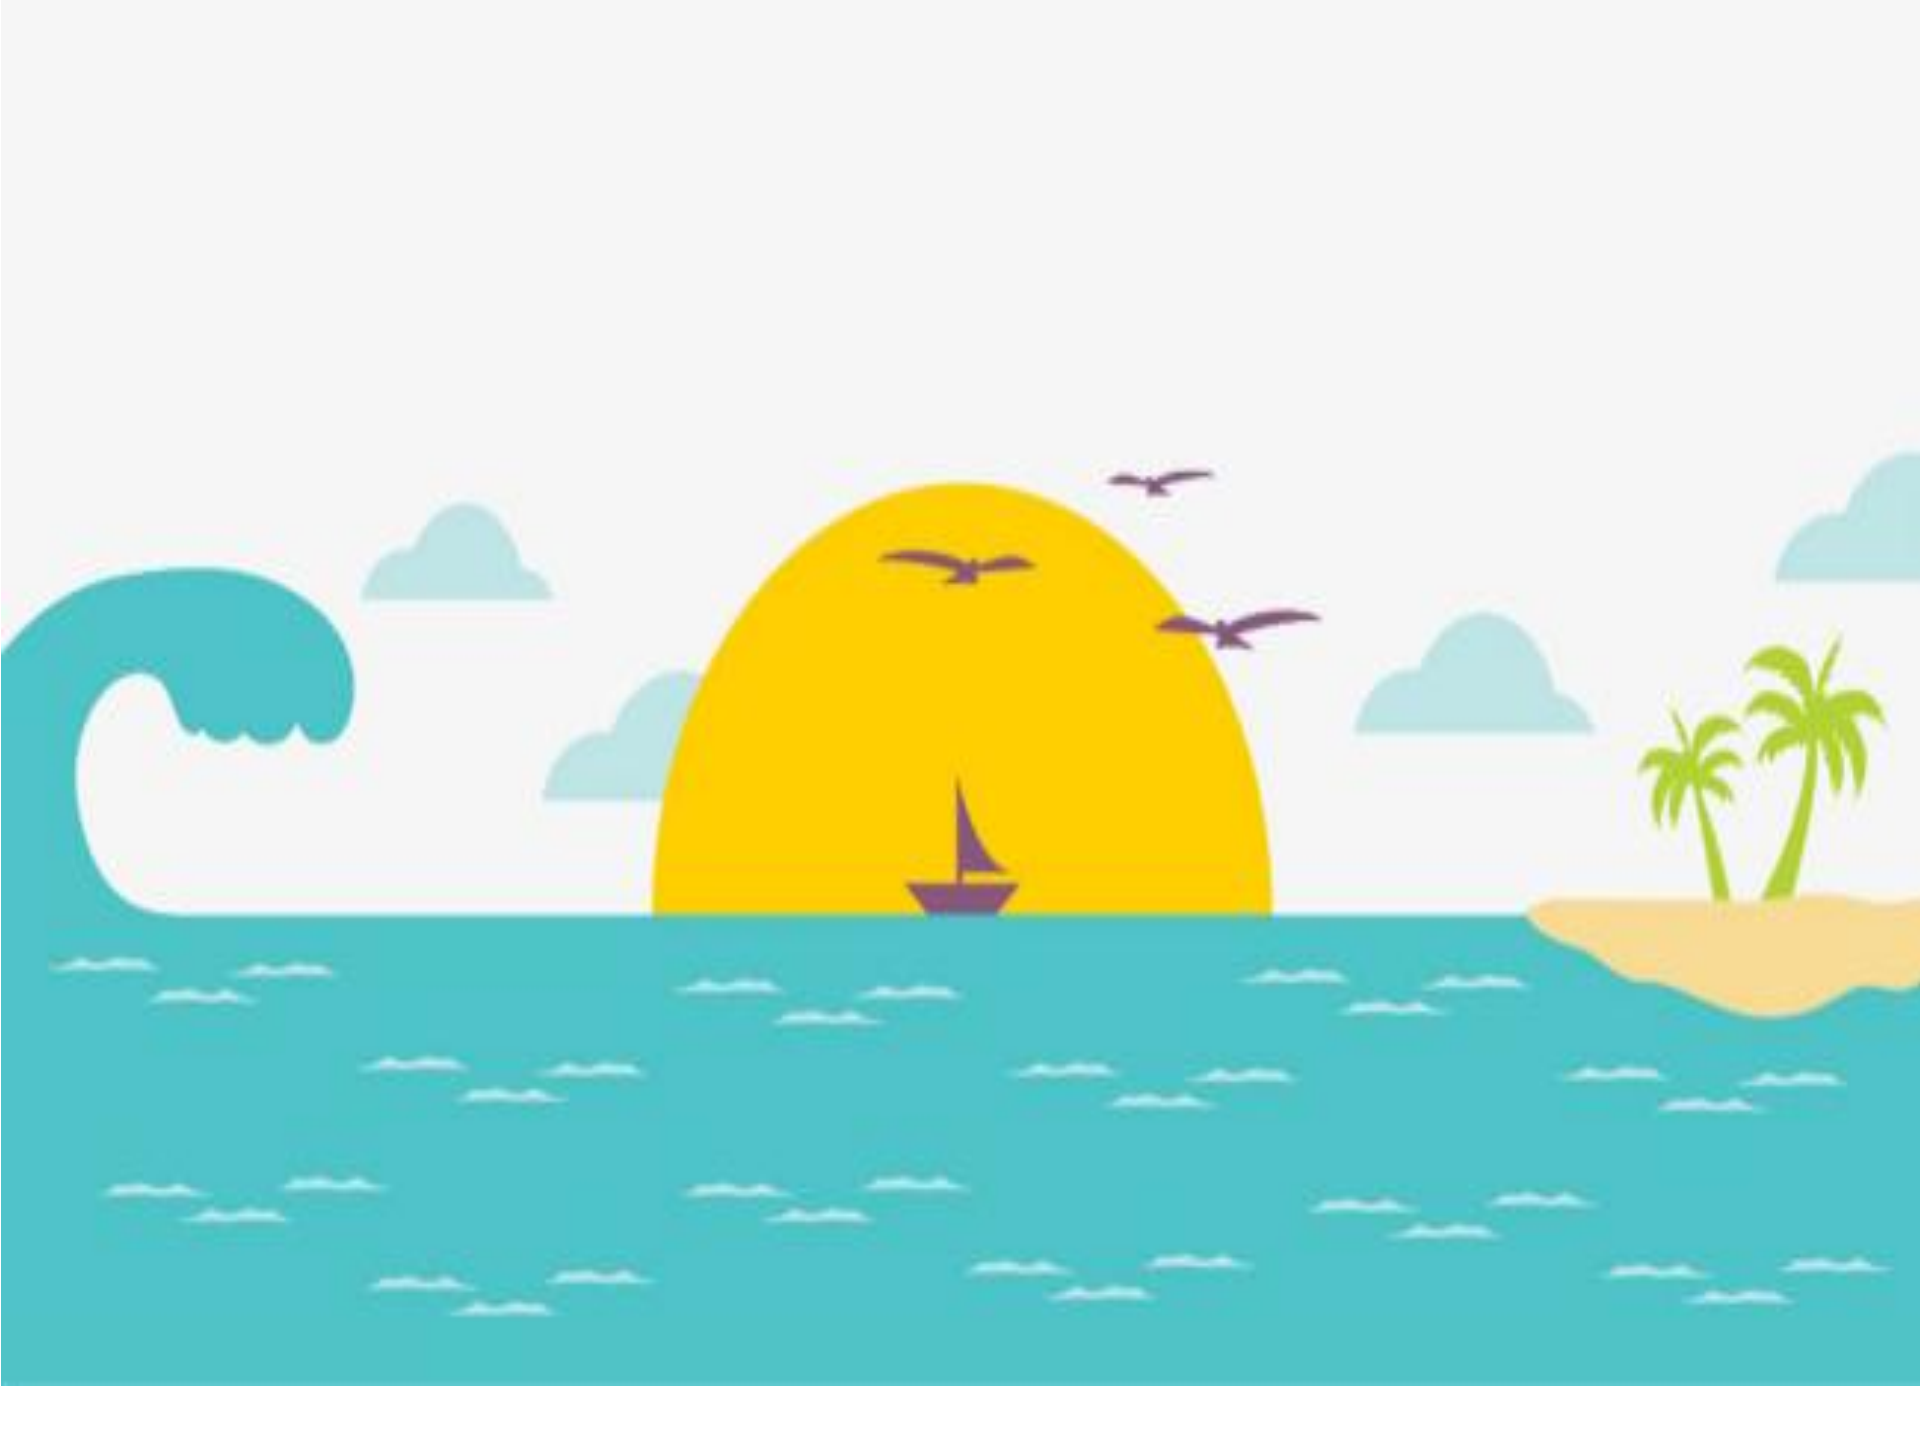

Colorie et découpe les animaux. Colle-les dans leur habitat.

### 3. J'apprends une structure

Où est le canard?

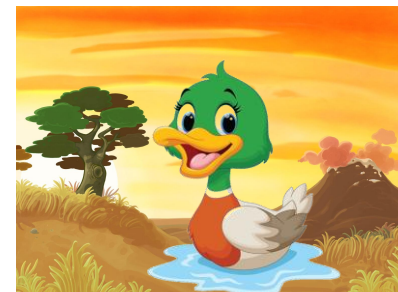

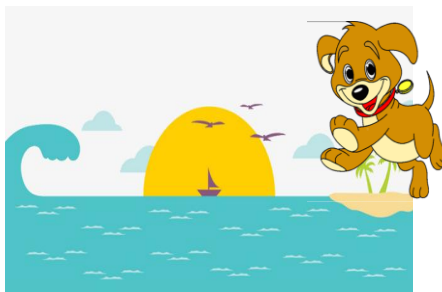

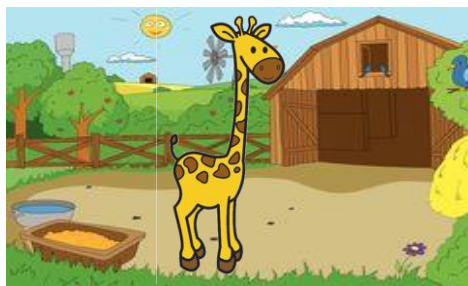

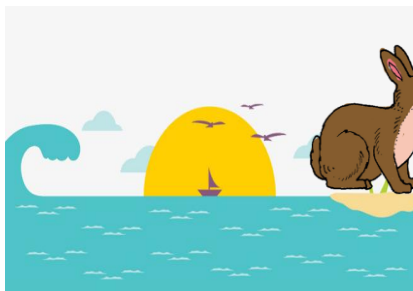

Il est dans la maison

# 3. J'apprends une structure

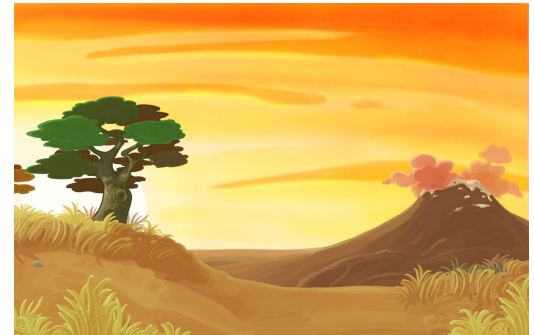

Où sont les animaux?

### 3. J'apprends une structure

Pose les animaux de pâte à modeler sur les différents lieux et pose la question "où est le:::?" à ton copain

## 4. Tâche finale: Times up

- Piocher deux flashcards (une d'animaux et l'autre d'habitats). Faire deviner à son équipe les deux flashards en 2 temps (où est le.....? Il est dans.....). Pour gagner le point, ils devront dire "le.....est dans la....."
