

## Activity at the Mezquita- Catedral de Córdoba

Walk around the mosque - cathedral of Cordoba and look for the following items.

Take a photo of them with you in front, prepare a collage with a mobile phone app and send it to your teacher!

1. The column from hell... It smells as if lucifer came to earth!!!

2. The column of the prisoner... Where a Christian prisoner sculpted a cross with his nail.

3. The ox that exploded... This ox transported the columns for the construction of the temple. When it brought the last one it...died.

4. The golden chain... It used to be so long that it reached the floor. But the bishops used it every time they needed cash. Today it is really short.

5. The image of the virgin in the painting of San Cristóbal. The single women who can find it, will get married in Córdoba.

6. The elephant's horn... It hangs from the ceiling.
