

THE CHEMICAL INDUSTRY	
Curso: 3º ESO	Asignatura: Física y química
Objetivos contenido	Objetivos lingüísticos
<ul style="list-style-type: none"> - Relacionar las reacciones químicas como causantes de muchos procesos industriales. - Valorar la importancia de la industria química . 	<ul style="list-style-type: none"> -Completar frases utilizando términos que se adecuen sintácticamente. -Reconocer vocabulario específico de la industria química.
Criterios de evaluación de la asignatura	
3.6. Reconocer la importancia de la química en la obtención de nuevas sustancias y su importancia en la mejora de la calidad de vida de las personas.	
Criterios de evaluación de bilingüismo	
- Comprender el significado de palabras a través de su contexto en frases.	
Vocabulario	
Synthetic material – Material sintético Cosmetics – Maquillaje/Consméticos Tools – Herramientas Fuel – Combustible To improve -Mejorar	Moulded – Moldeado Raw material – Materia prima Consumption - Consumo
Competencias básicas	
CA; CSC	

The chemical industry

1. Complete the terms in Box A using the vowels in Box B.

A			
n_t_r_l m_t_r_ls	S_nth_t_c m_t_r_ls	pr_d_cts	_xtr_ct_d
ch_m_c_l r_ct_ns	C_sm_t_cs	pl_st_cs	_bt_n_d
_nd_stry	t_ls	F_l	_mpr_v_

B		
i-u	e-i-a ea-io	a-i
y-e-i a-e-ia	o-ai-e	o-u
e-a-e	oo	o-e-i
ue	a-u-a a-e-ia	i-o-e

2. Fill in the blanks in sentences (a-h) with the appropriate term from Box A. Some terms are used more than once.

- a) Most _____ are the _____ of chemical reactions.
- b) Natural materials are _____ directly from nature.
- c) _____ are synthetic materials that can easily be moulded into shapes.
- d) _____ have been around for less than 100 years.
- e) _____ are created by humans, to meet their needs and _____ their quality of life.
- f) _____ are materials that can be manufactured.
- g) _____ are made by chemically changing raw materials to create a material with different characteristics.
- h) The chemical _____ is dedicated to transforming _____ into synthetic materials that are used to make useful products for consumption (such a _____).
